

CHEVROLET TRAVERSE FEATURED EQUIPMENT

**SETINA**

**PUSHING INNOVATION FORWARD**

# SETINA DELIVERS ON CHEVY TRAVERSE EQUIPMENT

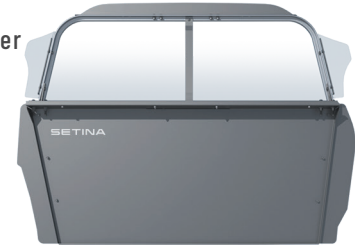

## The "XL" Extra #10 Partition

Setina's "XL" Extra Legroom Series Partition maximizes legroom for driver and rear passengers while providing ample storage space for firearms and gear. Its patented contoured design of the opening makes it easy to load and unload prisoners.

## The 12vs Rear Cargo Partition

Setina has got you covered from front to back. Our Advanced Rear Compartment Partitions have been professionally designed for law enforcement purposes, providing solutions for prisoner transport, versatile seating dividers, and secure mounting for cargo storage systems, electronics, and gear. The unique vented lower panel keeps your electronics cool by utilizing your vehicle's air system.

## Precision Fit, Window & Door Guard Systems

Protect your windows and increase visibility with Setina Window Barriers. Choose from steel frames and scratch-resistant polycarbonate coating for customization. Door Panel Systems are available in aluminum and steel options to fit your fleet perfectly.

## Setina PB400 Push Bumpers

Setina's PB400 Series Push Bumpers offer the latest technology in Push Bumper design. The PB400 is completely factory pre-assembled and wired for quick and easy installation. High-Strength Aircraft Grade Aluminum construction for optimum fuel economy and satisfies the automakers concerns for front-end weight limitations.

## Firearms Mounting Systems

Setina's T-Rail Mounting Systems offer law enforcement a superior solution for firearms mounting and placement. With maximum versatility and ease of access in mind, the unique T-Rail design allows for adjustable and flexible placement of multiple firearms. You can choose from various lock options that suit your department's requirements. These systems are available for partition, free-standing, or rear cargo area mounting.

## Setina Offers You Modular Flexibility with our Multi-Tiered Cargo Storage Box.

Setina's Rear Cargo Storage Box is available in multiple tiers & configurations to meet your department's needs. The top tier is available with any Setina lock option, including our NEW keyless RFID or KEY PAD locking systems. The lower slide-out equipment tray tier is designed with 300 lb. capacity, lock-in, lock-out Accuride slide rails. An optional 3rd tier is also available for electronics storage

# SETINA

Redefining cargo storage through a seamless blend of advanced technology and innovative design

Setina always designs with purpose. Our goal is to provide law enforcement with superior cargo storage solutions for firearms, cargo, and communication equipment. Our innovative modular designs and advanced locking systems offer flexibility, security, and easy accessibility, tailored to meet specific fleet needs. We've created a space for everything.
