LAW ENFORCEMENT EQUIPMENT

THE SETINA PROMISE

Setina Manufacturing Company is Proud to Celebrate Over 60 Years of Innovation

Founded in 1963 by John R. Setina, Setina Manufacturing began with his vision for officer safety. Drawing on 17 years with the Washington State Patrol, John developed protective equipment and earned multiple patents. Although John is no longer with us, his legacy continues, with the integrity and old-fashioned family values he so strongly believed in. His legacy endures in the company's integrity and commitment to law enforcement nationwide.

John Setina (third from left), Washington State Patrol

For over 60 years, Setina Manufacturing Company has been at the forefront of innovation, designing and producing the best high-performance law enforcement vehicle equipment used by agencies worldwide. From prisoner transport partitions and seating to push bumpers, cargo storage systems, firearms mounting solutions, and K-9 units, our products are built with one mission: enhancing safety, efficiency, and reliability for the men and women who serve.

John Setina's dream of engineering excellence was never merely a goal; it was his standard. That same commitment to quality and innovation drives us to set new industry benchmarks. Through strong partnerships with law enforcement, we stay focused on what truly matters: delivering solutions that meet the demands of those that serve on the front line.

SETINA'S COMMAND CONSOLE

Optional Internal Printer

Accommodates roll or 8.5 x 11 sheet-fed paper

SETINA

WHAT'S NEW FROM SETINA

Setina Next-Generation Vehicle Console Innovation

Available in Wide Body, Low Profile, and Deep Body configurations, Setina's aircraft grade aluminum consoles deliver ergonomic comfort, tool-free installation, and seamless integration with keyboards,| laptop mounts, internal printers, and faceplates from major manufacturers for maximum functionality.

Setina products deliver exceptional durability, superior corrosion resistance, and lasting Protection in demanding environments.

See page 10-11 for more information.

Setina's New SuperCell

Engineered for strength and flexibility, Setina's SuperCell design features lightweight aluminum construction, hinged or fixed divider options, SmartBelt compatibility, versatile cargo storage, and maximum passenger comfort.

See page 14 for more information.

THE TOTAL LAW ENFORCEMENT

Taking Transport Seating to the Next Level Efficiency

1

Laboratory testing is a critical part of seat belt design and performance. Setina's unique center-pull seat belt systems are professionally designed and laboratory tested to meet 207/210 FMVSS, Federal Seat Belt Safety Standards.

Page 14

3

Maximizing Every Inch of your Vehicle's Cargo Storage

Our comprehensive easy cargo designs ensure every inch of your storage area is maximized for gear, firearms, or electronics with easy accessibility for all your fleet needs.

Page 28

SETINA PROCESS

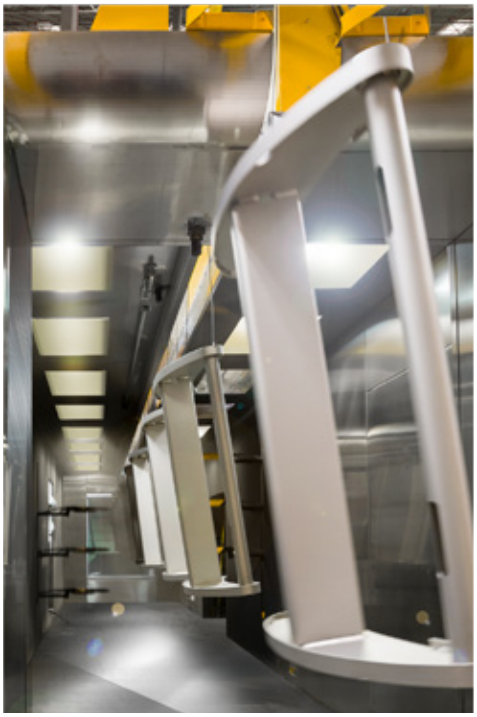

ECO-TREAT PROCESS

Protecting Our Environment

Setina's Environmentally Friendly "Eco-Treat" Process provides Superior Corrosion Resistance and Exceeds Automotive Industry PPAP Standards.

LABORATORY TESTING

In addition to knowing Setina has the highest quality finish and corrosion protection on our Push Bumpers, Setina has taken it to the next level with Independent laboratory testing.

Salt Spray And Scribe Testing

Hardware exceeds 3,000 hours of continuous salt spray, 3 times the 1,000 hour industry standard against both white and red rust.

Gravelometer Testing

Testing for surface chipping caused from impact. Setina parts exceeded 2,000 hours, 2 times the 1,000 hour SAE, and ASTM standards.

SETINA PUSH BUMPER

UV Fade Resistance

Laboratory Tested Powder Coat Finish Exceeds the Automotive Industry, S4214 Method D559, South Florida Exposure Standards for UV protection against fade, for gloss and color stability.

B WINCH-READY BODYGUARD PB400

High-strength aluminum or steel. 1/4" Steel Winch Mounting Plate. Accommodates most standard winch models up to 12,000 lbs. Mounts to vehicle's recovery hooks for added strength.

For Trucks

The Setina Difference

Superior Aluminum Design

- 40% lighter weight
- Aircraft-grade, high-strength aluminum
- Optimum fuel economy & weight distribution for better control
- Weight reduction reduces vehicle's front end fatigue
- Satisfies auto maker's concerns on front end weight limitations
- Steel models also available

Proven Designs, Easy Installation

The PB450-L and PB400-L are completely factory pre-assembled and wired for quick and easy installation. Wiring is protected within the push bumper assembly.

Primer and Powder Coat Push Bumper Testing

Exceeds: ASTM B117, Neutral Salt Spray Standards

Exceeds: ASTM D2247, Humidity Resistance Standards

Exceeds: Automotive Industry, S4214 Method D559, South Florida Exposure Standards

Setina's Fender Guards, Together with Our Bumpers

The Perfect Match is Soft on the Environment

We all know the importance of teamwork That you can always depend on. Setina push bumpers and fender guards work perfectly together, no matter if you are pushing disabled vehicles off roadways, performing the "pit" maneuver, or if you want added protection from costly damage to your fenders, grille and headlights.

Proven Designs for Law Enforcement

Setina's high-strength, impact-resistant fender protectors and headlight guards are the #1 choice of law enforcement.

Setina P.I.T. Trainers

Built for demanding training, Setina's P.I.T. Trainers combine aircraft-grade aluminum, reinforced impact zones, heavy-duty steel mounting, removable rear sections, corrosion-resistant fasteners, and long-lasting performance.

MADE IN AMERICA

ADAPTABLE AND FUNCTIONAL

SETINA COMMAND CONSOLE

Setina's New Law Enforcement Console for SUVs and Trucks

PRECISION DESIGN FOR SUPERIOR FUNCTIONALITY AND COMFORT

Setina's next-generation police vehicle console is designed for maximum comfort, adaptability, and performance. Built with ergonomic appeal and a swivel armrest that provides all-day support and easy access to controls, plus an internal printer. Featuring a duty belt and sidearm recess for enhanced officer comfort and unrestricted movement while seated.

Adaptable & Functional

- Wide Body models — ideal for full-size SUVs and trucks
- Deep Body or Low Profile models — perfect fit for mid-size and smaller SUVs
- Crafted from aircraft-grade aluminum with a durable black powder-coat finish
- Easy no-drill mounting system ensures quick, seamless installation
- Compatible with keyboards and laptop mounts

Wide Body, Ideal for Trucks

Ford F-150, Chevrolet Tahoe & 1500, Dodge Durango & Ram 1500

MADE IN AMERICA

Setina's "XL" Xtra Legroom Partition Design

Our Most Popular Design

Setina's® patented line of "XL" Side Curtain Airbag Compatible Partitions. Based on our popular Space-Saver, "RP" Recessed Panel design with Xtra Legroom. Our Suspended Mounting System anchors to vehicle's B-Pillars, eliminating partition floor mounting brackets with no foot obstructions in vehicle foot well area.

Maximum Clearance for Entry and Exit

Unique Open Contoured Design provides officer with the easiest prisoner loading and unloading. Recessed storage panel between front seats provides extra space for consoles, mounting vertical gun locks, other accessories and gear.

"XL" Xtra Legroom

Modified steel framework provides strength with no leg obstructions for maximum design strength. Enlarged passenger side back panel recess also provides additional leg and foot room that prevents foot entanglement while offering maximum leg room for both officer and prisoner.

SETINA

The Setina Difference

Precision Mounting is a Critical Part of Our Design

Setina's "BodyGuard" partitions are professionally designed for maximum strength, durability, and ease of installation. All partitions feature welded and formed steel construction, heavy-duty roll bar style framework, and are finished using a multi-step powder coat process for added durability.

Superior, laboratory-tested side curtain airbag compatible mounting systems are designed to mount to the strongest points inside the vehicle. Creating space-saving efficiency for maximum driver and passenger legroom.

Coated scratch-resistant polycarbonate Lexan® is the standard in Setina partition windows and recommended to our customers, to prolong the life and clarity of your window, and comes with a 7-year manufacturer's warranty against breakage.

SETINA

SuperCell© Single Prisoner Transport and Storage

Redefine interior versatility with the SuperCell Flexible Seating and Storage System

Purpose-built for professionals, the Setina SuperCell Flexible Seating and Storage System seamlessly integrates secure single-passenger transport and versatile cargo management with a hinged polycarbonate window design.

Engineered from lightweight aircraft-grade aluminum, it delivers exceptional strength, durability and performance for today's demanding fleet vehicles.

More Access. More Possibilities.

The next evolution in prisoner transport and cargo management.

Setina's new SuperCell partition features a unique, patent-pending design that maximizes driver recline and gear storage. A hinged center wall provides expanded access and loading flexibility, giving officers more room for the demands of every shift.

(SUVs require a Model #12 rear compartment partition)

SINGLE AND SUPERCELL PRISONER TRANSPORT SYSTEMS

SETINA

Single Prisoner Transport

Available with scratch-resistant polycarbonate barrier, with half partition seat back panel, and 12VS rear cargo partition

Single Prisoner Transport and Full TPO Seat

Scratch-resistant polycarbonate barrier, half partition seat back panel with OEM replacement seat design, with 12VS rear cargo partition

SuperCell Prisoner Transport

Removable scratch-resistant polycarbonate barrier, half partition, seat back panel with 12VS rear cargo partition

Single Transport Solutions

SuperCell Single Prisoner Transport For SUVs &Trucks

- Aluminum single cell design partition engineered for strength without adding weight
- Open area behind the driver for maximum seating recline
- Hinged divider wall or fixed divider wall
- TPO passenger side transport seat with center-pull the seat belt system and the driver's side cargo deck
- Available with SmartBelt seat belt system
- Optional with half cargo deck, compatible with driver's side rear factory seat

Seat sold separately

SuperCell Prisoner Transport

(Top View Left)

Dual Prisoner Transport Panel Kit

Full partition seat back panel with divider wall allows for dual and separate prisoner transportation, as well as separation from driver and front passenger.

Multiple configurations available. Full partition seat back panel and divider wall sold separately.

3 Single Prisoner Transport Space-Saving Designs

Single Prisoner Transport Systems provide a secure area to hold the detainee and maximize officer comfort. Only Setina Single Transport units retain the full roll bar-type framework design for structural integrity, and a variety of optional firearm mounts.

SETINA

FIREARM LOCK SOLUTIONS

Simple Solutions For Complex Firearms

Vault Lock Features

- Denies access to the firearm's take-down pins, magazine and trigger
- Secured with tamper-proof security fasteners
- Rounded anti-scuff strips for easy firearm removal and insertion
- Adapter plate for weapon flexibility
- Both lock systems fit most configurations of AR-15s, M4s and shotguns with collapsible stocks & rails
- Compatible with firearm accessories
- Provides quick, easy firearms access
- Compatible with any Setina dual or single T-Rail firearm mounting system
- Heavy-duty, lightweight aircraft-grade aluminum

T-RAIL TECHNOLOGY

T-Rail weapon systems provide maximum adjustability and flexibility to accommodate multiple weapons and lock heads. Available in double or single mount models, with universal, small, large, VaultLock, or Blac-Rac lock options.

Fits XL, recessed panel and flat panel partitions.

SETINA

OEM Replacement Seating

Prisoner Transport Systems

- Stand-alone, OEM replacement seating systems
- Contour design for maximum prisoner legroom and contraband control
- Center-pull Seat Belt System eliminates officers' need to reach across suspect to buckle seat belt
- Available with original center-pull seat belt system or with SmartBelt electronic seat belt system
- Molded seat back recess provides additional space for suspect's handcuffed arms
- Heavy-Duty, moisture and pathogen resistant

THE TPO ADVANTAGE

WHAT IS TPO? TPO or Thermoplastic PolyOlefin is the highest automotive grade polymer (plastic) used as "the standard" by the auto industry. TPO is shatter, flame and chemical resistant and exceeds NHSTA regulations. It is far superior to ABS plastics.

Setina OEM Replacement Seating

Designed for maximum rear passenger legroom

Precision Fit Seat Cover

Prisoner Transport Systems

Don't store your seat! Setina's precision fit cover style seating systems install with a precision fit, right over the vehicle's existing seat. Unlike other models, our cover style seating system design eliminates the need to remove and store your vehicle's OEM factory seat. Available with our advanced center-pull system or our newest electronic SmartBelt system.

- Laser measured for precision fit
- Installs right over the vehicle's OEM seat, eliminating the need to remove and store your factory seat
- Designed to maintain the optimal rear seat occupant placement
- Center-pull seat belt system eliminates officers' need to reach across suspect to buckle seat belt
- Available with original center-pull seat belt system or with our electronic SmartBelt seat belt system

Precision Fit Cover Seating

Cover Style seating system design installs with a precision fit, right over the vehicle's existing seat.

SMARTBELT ELECTRONIC RETRACTOR
LOCKING SYSTEM
PATENT NO. US 11,104,296

ELECTRONIC SEAT BELT SYSTEM

JUST CLICK IT!

Setina's SmartBelt

Setina's SmartBelt system is the latest technology in center-pull seat belt design

When Belt Is Buckled:

- Seat belt retractor is electronically locked in "retract-only" mode
- Retractors automatically lock to secure detainee

When Belt Is Unbuckled:

- Warning light activates, notifying officer
- Retractor unlocks, allowing "free-spool" of belt

The SmartBelt Features:

- Automatic electronic retractor locking system
- Retractor locking mode alert light
- Stays in lock mode even during power loss
- FVMSS approved components
- Quick, easy installation
- Compatible with replacement, cover style or factory seats
- Retrofit Kit available for standard center-pull seat belt systems

SMARTBELT
ELECTRONIC RETRACTOR
LOCKING SYSTEM
PATENT NO. US 11,104,296

ALERT LIGHT

- Notifies officer if detainee is unbuckled
- Easily mounts to console, partition, or dash
- Radio console not included

PATENT NO. US 10,688,960

SETINA

CENTER-PULL SEAT BELTS

Laboratory Tested

FMVSS 207/210 Compliant Center-pull Seat Belts

Setina's Center-pull Seat Belt System is uniquely designed for the seat belt buckle to be docked in the "Park Position" on the prisoner partition when not in use. When belting the suspect for transport, the officer simply moves the buckle from the "Park Position" on the partition to the outer latch "Transport Position" on the transport seat, eliminating the need to reach across suspect, significantly reducing officer contact with the rear passenger.

Rear Occupant Body Placement

Proper rear seat occupant placement is a critical part of the automaker's engineered airbag deployment systems. Setina's® advanced airbag compatible design maintains the rear seat occupant placement.

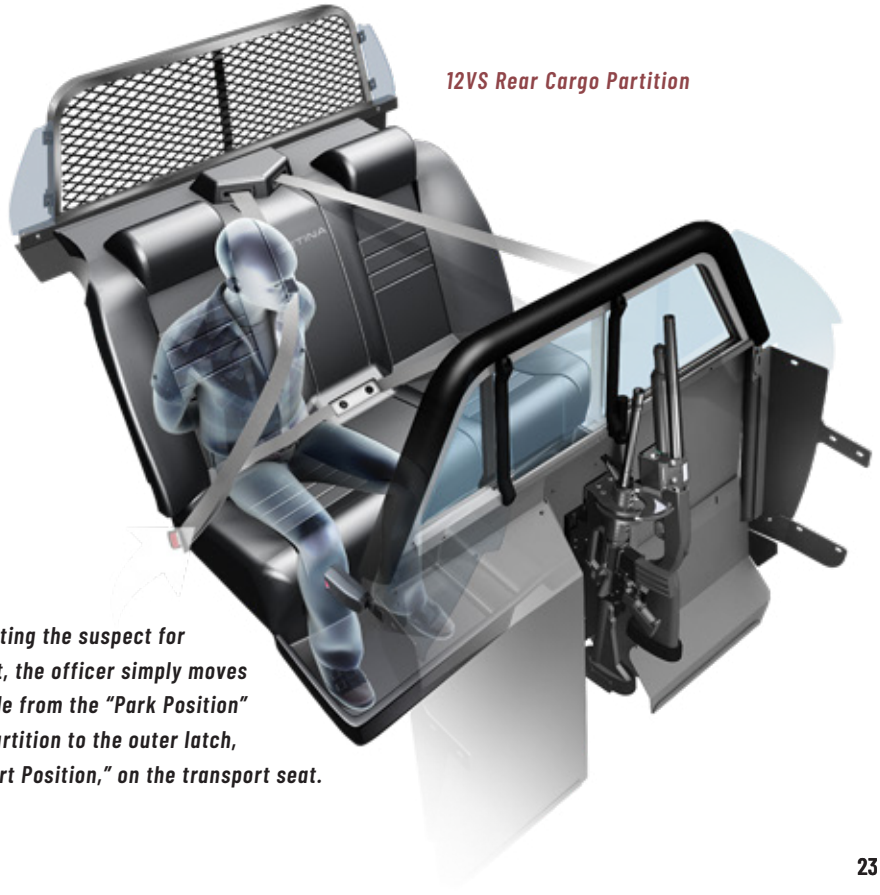

Available with Vinyl Coated Expanded Metal or Coated Scratch-Resistant Polycarbonate Windows.

(SUV models require a rear cargo compartment partition)

Federal Motor Vehicle Safety Standard 207/210 Compliant Seat Belt Assembly

- Professionally designed and laboratory tested to meet the rigorous 207/210 FMVSS seat belt standards.
- Maintains OEM's body position for airbag deployment.
- Seat and belt system designed for officer and occupant ease and security.

12VS Rear Cargo Partition

When belting the suspect for transport, the officer simply moves the buckle from the "Park Position" on the partition to the outer latch, "Transport Position," on the transport seat.

REDEFINING STORAGE FOR SUVs

SETINA

The Max For SUVs

The Ultimate Transport and Interior Cargo Storage for All SUVs

Designed for active duty, The Ultimate solution stands out by providing optimal functionality for SUVs, offering both Single Prisoner Transport and Interior Cargo Storage. Setina's innovative design guarantees efficient Single Prisoner Transport, along with maximizing interior storage space.

Rear Seat Double Deck and Locking Drawer Storage

Single prisoner seating with polycarbonate And steal barrier. Barrier may vary with vehicle type. *(MAX for utility shown)*

The Max features include:

Our Max for SUVs includes a durable polycarbonate steel divider wall specifically designed for single-prisoner transport, ensuring safety and security during transit. Additionally, we offer a heavy-duty pull-out cargo drawer with additional shelving, providing efficient storage solutions for law enforcement fleets. Available for Dodge and GM, the Single Prisoner Transport seat requires a front recessed partition sold separately for installation.

Single Prisoner Transport Max

The Ultimate Solution for Single Prisoner Transport and Interior Cargo and Electronics Storage for Crew Cab Trucks

Setina's new durable design construction provides single prisoner transport and maximum interior storage.

Some exciting new features include:
A single prisoner transport
Recessed and XL Partitions (*sold separately*).
Heavy-duty pull-out cargo drawer system.
Integrated radio and electronics storage bay.

Load It Up!

Rear driver side lower storage deck with a heavy-duty rubber protective mat and tie downs.

Available with optional upper secure storage deck for optimal storage possibilities.

Single prisoner transport seat with center-pull SmartBelt system for maximum front and rear passenger legroom.

Includes passenger side Aluminum Door Panel
(Driver side sold separately)
